29. Bonus money

After creating an account on Makao Casino you can be rewarded with bonus money - encouragement for various achievements.

29.1. Bonus money: description

The process of adding and using bonus money is regulated by the following rules:

- In order to receive a bonus, you must first activate it. We recommend you to read bonus Terms carefully before activating.
- The bonus amount is added to your balance. The bet is made by withdrawing money from the balance, which consists of the main and bonus parts.
- All winnings are transferred to the balance and the money can't be withdrawn until you bet the necessary amount of times (wager).
- When the wager for bonus is fully processed, the bonus part is transferred to the main balance and the possibility of withdrawing any amount opens, within the available funds.
- Not all bets are counted as wagering the bonus. There is a number of exceptions (games) that do not count or count with lower contribution.
- Only one bonus can be active at the same time on your account.
- The conditions for wagering the bonus are annulated when the customer reaches a balance of 0.05 EUR/0.05 USD or less.

- The bonus is a kind of reward and can't be replaced by any other kind of compensations.

29.2. Bonus money: wager (wagering) The process of wagering a bonus means placing a bet on a certain amount, previously described in the bonus conditions. Please make sure that you have read these Terms and Conditions, or if necessary, consult with the support service. Not all bets are taken into account. The bets from table games (Roulette, Sic Bo, Baccarat and others), as well as from various video poker games are not taken into account. The maximum bet amount to wager the bonus is 2 EUR (2 USD, 150 RUB, 9 PLN). Percentage of the bets may vary from time to time depending on the bonus. Therefore, in case of doubt, please consult the support service. Betting more than 2 EUR (2 USD, 150 RUB, 9 PLN) at once while having an active bonus can be considered as misuse of bonus offers and can lead to exaction of all wins received in such way.

29.3. Refund Policy Our games and betting offers are provided for entertainment only. Any stakes you place on a game or bet are non-refundable as the product is virtual and is instantly consumed. If you play a game or bet with real money, funds will be drawn from your account instantly and cannot be returned.

29.4. Interrelation of bonuses and their priority The process of bonus activation in your profile and their further wagering is guided by the following rules.

- The bonus has several states:

1. In your profile – the bonus is available for activation in your profile.
2. Activated – the bonus is activated and is waiting for deposit or is automatically activated (in case of no deposit bonuses).
3. Waiting for wagering – the bonus is waiting for the player to wager the bonus.
4. The bonus was wagered – all the conditions of the wagering were fulfilled.
5. Bonus was canceled – for some reason the bonus was canceled by the players or by the support service.

- At the same time you may have several types of bonuses available in your profile, but only one bonus can be activated.

- Activation of the next bonus is possible only in the case when the previous bonus has the status “Wagered” or “Canceled”. In case if your bonus has the status “Waiting for Wagering”, the system will not allow you to activate the next bonus.

29.5. Persistent misuse of bonuses The bonus is considered to be a kind of present and encouragement to the players and does not imply any commercial gain or profit by safe wagering of bonus. As a part of providing protection against all kinds of fraudulent schemes Makao Casino reserves the right to check the payment and gaming activity of customers at any time. And in case of identifying persistent misuse of bonuses Makao Casino has the right to take measures providing for either disabling the possibility of receiving bonuses in the future, or obtaining compensation for losses incurred. In order to avoid questionable interpretation of the rules, we give several examples of a dishonest games. The full list of abuse is not limited by the descriptions provided below.

Example 1: The gamer makes many bets with the minimum expected win in order to get more bets and to wager the bonus as soon as possible. For example, making bets on all numbers in roulette, or on black / red and any other identical bets. This can be considered as persistent misuse of the bonus and lead to additional verification and possible block of an account.

Example 2: The gamer makes high bets (from \$5 and higher) to get money on his / her balance quickly and then decreases bets radically (in 2 or more times) in order to wader the bonus with less risks with an increased balance. Such situations will also be subject to verification and may lead to the account closure.

Each rate going to bonus wagering should not exceed 20% of the bonus amount. If the rate is 20% or more, such a rate will not count, and the status of the bonus wagering will be reconsidered.

Any combination which has any of the elements of the examples mentioned above, and leads to a potential persistent misuse of the bonus policy may be an occasion for additional verification.

Pay attention to the fact that a confirmed phone number is obligatory for confirming the identity and is a guarantee for receiving the bonuses; in the case if these conditions are not fulfilled, the client may be suspended from the bonus policy of the Site.

Makao Casino reserves the right to change the Terms of its bonus policy any time. The client takes responsibility to keep abreast of the most relevant information regarding this issue.

It is forbidden to postpone any game rounds, including free spins or bonus games. In case of the discovery of deferred rounds, the casino reserves the right to block the player's account and confiscate all funds.
